Team Members

Principal Investigators: Dr. J.R.B. Alfred

Mr. Biswajit Roy Chowdhury

Project Coordinator: Mr. Ayan Roy Chowdhury

Field Botanist: Dr. Saikat Manna

Field Biologist: Ms. Ranjana Saha

Field Assistant: Mr. Tayan Das

Acknowledgements

- We are grateful to the West Bengal CAMPA for generous funding of this project. We are indebted especially to **Sri Sandeep Sundriyal, IFS**, Principal Chief Conservator of Forests and CEO, WBCAMPA for his constant support and according to the necessary approval to undertake the work in this project.
- We are very grateful to **Mr. Koushik Sarkar, IFS**, Conservator of Forests & Joint Chief Executive Officer, WB CAMPA; **Sri Nilratan Panda, WBFS**, Deputy Chief Executive Officer, WBCAMPA.
- We are indebted to all the DFOs of the concern Forest Divisions for all the help and specially for providing all the logistics and the necessary permission, documents related to the project.
- We also thank all the ADFOs, Range Officers, Beat Officers, Accountant and Field Staffs for their guidance towards us in Office works and worked with us in the field, throughout the project tenure.

A. Introduction:

The “Compensatory Afforestation Fund Management and Planning Authority” (CAMPA) is a national programme funded by the Ministry of Environment, Forests and Climate Change; Government of India being implemented in all the states of the country. Under this programme large scale activities have been taken up to accelerate preservation of natural forests, management of wildlife, infrastructure development in the relevant sectors and other allied works.

In order to meet the present demand of forest resources increasing the forest tree cover, and simultaneously implementing afforestation works through social forestry, farm forestry, agro-forestry, community forestry, afforestation on wastelands, panchayat lands, by Compensatory Afforestation through CAMPA is the major and important components of this scheme.

In West Bengal, the Honourable Supreme Court approved the guidelines prepared by the MoEF&CC for utilizing CAMPA funds by an agency to be constituted in the various states of India and is known as the West Bengal CAMPA in the state of West Bengal. These guidelines were notified by the MoEF&CC, Government of India on 2nd July, 2009.

In West Bengal, CAMPA seeks to promote, conservation, protection, regeneration and management of existing natural forests, wildlife and its habitat within and outside protected areas, through compensatory afforestation.

Other Environmental services, include -

- Wood, non-timber forest products, fuel, fodder and water, and provision of services such as grazing, tourism, wildlife protection and life support systems.
- Regulatory services such as climate regulation, disease control, detoxification, carbon sequestration and health of soils, air and water regimes; (forest range level). In short, the department would be modernized to protect and regenerate the forests and its wildlife habitat.
- Non-material benefits obtained from ecosystems, such as spiritual, recreational, aesthetic, inspirational, educational and symbolic.
- Supporting such other services necessary for the production of ecosystem services, biodiversity, nutrient cycling and primary production, Research, training and capacity building.

After all these years of management using CAMPA guidelines, it has now become imperative that projects implemented so far, are assessed for its outcomes and impacts. This would not only help in highlighting the positive achievements but more importantly, aid in addressing areas of concern. For an unbiased assessment a tender notice was published for the ‘Third party Monitoring of WBCAMPA works of the financial year 2020-2021’ against NIT no. 08/ CAMPA/ 2C-203/ 2021-2022 (Second Call) dated 21/02/2022.

In this project the evaluation is being made on the plantation and non-plantation works funded by WBCAMPA through the third-party monitoring for the Financial Year 2020-2021. A total of 31 Forest Divisions in West Bengal is being evaluated through this project.

B. Methodology:

All the 31 Divisional forest offices of North Bengal and South-West Bengal were visited as per the schedule sent to the office of the PCCF and CEO WBCAMPA. All the bills and vouchers along with other necessary documents like cash book, monthly financial expense report etc. were checked and verified with the amount as provided by the WBCAMPA office for the financial year 2020-2021.

For plantation works: Information on plantations including advance work, creation work and maintenance work along with locations (forest ranges/beats/mouzas/blocks/compartments etc.) were collected from the respective forest divisional offices. After collecting the plantation list, each of the plantation sites were visited and 5% of the total plantation area for creation and maintenance works were sampled using a grid size of 50m X 50m. In each sample plot all the plants (dead or alive) were counted and survival percentage calculated. As per methodology proposed by IIFM, Bhopal (Tambe *et al.*, 2016), Average height (m) and girth (cm) were measured in the respective sample plots. GPS coordinates of each sampling plots along with photograph of plantation sites were taken. For up to 3-year-old plantation the girth was measured 50 cm above from ground level, for up to 5-year-old plantations the girth was measured 100 cm above from ground level and plantations older than 5 years, diameter at breast height were taken.

For non-plantation activities: This includes construction/renovation of Range Offices, construction/renovation of staff quarters (Group-C, Group-D etc.), construction of toilets in JFMCs, establishment of nursery, purchase of equipment, purchase of boats, JFMC micro-plan activities including earthen dam, digging ponds, submersible pumps, construction of watch tower etc. of the concerned forest divisions. Information on all non-plantation activities of each forest division were collected from concerned divisional office and thereafter interacted with the officials of the relevant forest Range/Beat office and took photographs as evidence of completion of the work.

Scoring of the non-plantation/asset creation/ other activities was done based on the marking criteria as follows:

- 5 - Verified physically and with documents
- 4 - Verified physically but documents are not traceable
- 3 - Verified from available documents only
- 2 - Verified with the other sources (circumstantial evidences)
- 1 - Could not be traced

Weighted average survival percentage of plantations in each forest division was calculated using the

Following formula –
$$\text{Weighted average survival (\%)} = \frac{\sum \text{Area} * \text{Survival\%}}{\text{Total Area}}$$

Performance, based on the weighted average survival percentage, the plantations in each of the forest divisions were categorised as follows –

Sl. No.	Category	Weighted average survival (%)
1	Category A	75% and above
2	Category B	60%-74%
3	Category C	40%-59%
4	Category D	Less than 40%

The division wise list of plantation and non-plantation works was provided along with the NIT (Annexure - 1)

C. Results:**List of visited Forest Divisions of North Bengal:**

Sl. No.	Division	Office Visit	Field Visit
1	Darjeeling Forest	16.05.2022	16.05.2022

D. Discussion:

- 12 forest divisions (3 in North Bengal and 9 in South – West Bengal) were provided with financial assistance by WBCAMPA in the financial year 2020-2021 for creation of plantation in respective forest ranges.
- 21 forest divisions (10 in North Bengal and 11 in South – West Bengal) were provided with financial assistance by WBCAMPA in the financial year 2020-2021 for maintenance of older plantations (1st year, 2nd year, 3rd year and 4th year) in respective forest ranges.
- Silviculture Hill, Silviculture North and Silviculture South Divisions were financially assisted by WBCAMPA in the financial year 2020-2021 for creation of Tall Seedlings and Grafted Seedlings.

Table – I. Average weighted survival Percentage of the creation work in the year 2020 – 2021 under financial assistance of WBCAMPA

Forest Divisions	Average Weighted Survival (%)	Category
Rupnarayan Division	98.66%	A
Birbhum Division	98.63%	A
Kalimpong Division	98.54%	A
Bankura North Division	95.54%	A
Durgapur Division	93.42%	A
Kangsabati South Division	93.21%	A
Kharagpur Division	92.46%	A
Burdwan Division	90.42%	A
Kangsabati North Division	90.21%	A
Medinipur Division	88.89%	A
Baikunthapur Division	87.07%	A
Malda Division	82.95%	A

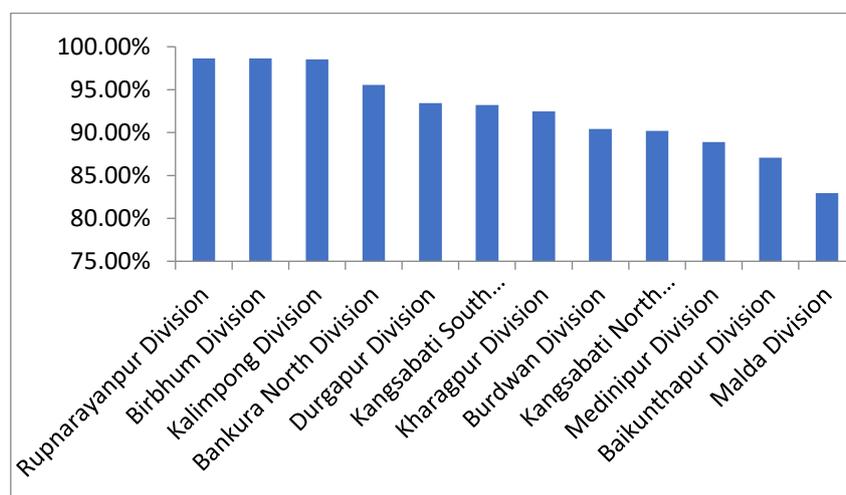

Figure 1. Weighted Average Survival (%) of Plantation Created During the F.Y. 2020-2021.

- In creation works, Rupnarayan Forest Division recorded maximum survival of 98.66% followed by Birbhum Division with 98.63% and Kalimpong Division 98.54% survival rate respectively.

- For creation of plantation in all the 12 forest divisions it was noted that all come under the category A (with survival rate of 75% and above).

Table – II. Average weighted survival Percentage of the 1st year maintenance work in the year 2020 – 2021 under financial assistance of WBCAMPA.

Forest Division	Weighted Average Survival (%)	Category
Jalpaiguri Division	97.18%	A
Rupnarayan Division	96.49%	A
Silviculture South Division	95.50%	A
Birbhum Division	93.94%	A
BTR East Division	91.99%	A
Durgapur Division	91.38%	A
Silviculture Hill Division	90.40%	A
Jaldapara Wildlife Division	89.31%	A
Kangsabati North Division	88%	A
Kangsabati South Division	87.30%	A
Purulia Division	87.30%	A
Kalimpong Division	86.41%	A
Gorumara Wildlife Division	82.98%	A
Kurseong Division	82.63%	A
Silviculture North Division	76.47%	A

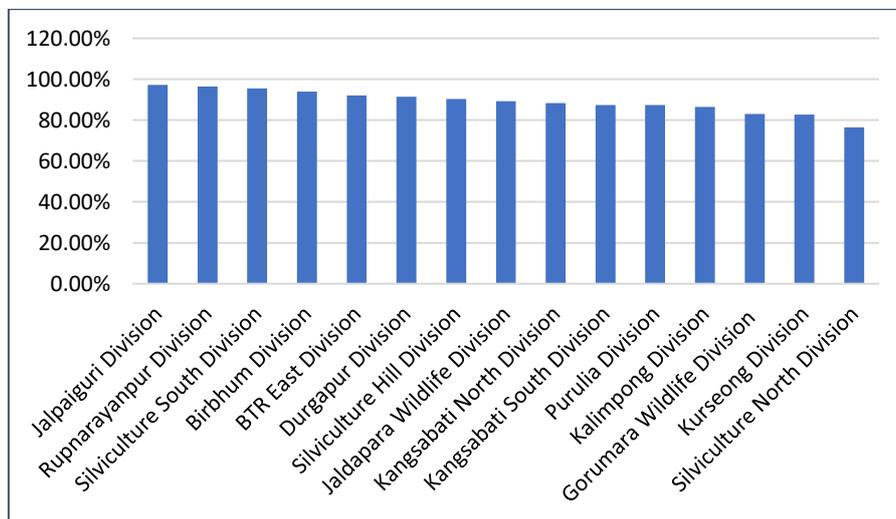

Figure 2. Weighted Average Survival (%) of the 1st year maintenance work of plantations.

- In maintenance works, Jalpaiguri Forest Division revealed the maximum survival of 97.18% followed by Rupnarayan Division with 96.49%, Silviculture South Division with 95.50% and Birbhum Division with a 93.94% survival rate.

- All the 15 forest divisions come under the category A for 1st year maintenance work.

Table – III. Average weighted survival Percentage of the 2nd year maintenance work in the year 2020 – 2021 under financial assistance of WBCAMPA

Forest Division	Weighted Average Survival (%)	Category
Jaldapara Wildlife Division	100%	A
Coochbehar Division	94.23%	A
Jhargram Division	93.09%	A
Kangsabati North Division	92.51%	A
Durgapur Division	92.11%	A
BTR East Division	92.05%	A
Birbhum Division	88.88%	A
Kalimpong Division	87.63%	A
Darjeeling Division	87.57%	A
Purulia Division	82.40%	A
Bankura North Division	49.65%	C

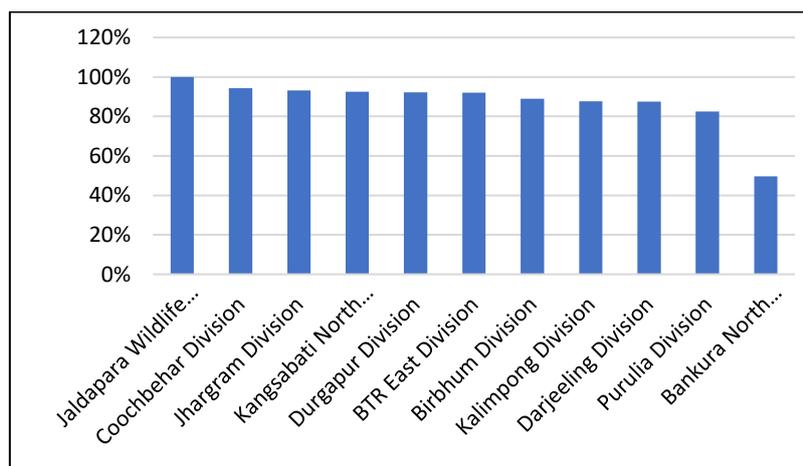

Figure 3. Weighted Average Survival (%) of the 2nd year maintenance work of plantations.

- Among the 11 forest divisions, Jaldapara Wildlife Division exhibited excellent survival rate of 100% followed by Coochbehar & Jhargram divisions with 94.23% & 93.09% rate of survival respectively.
- During the 2nd year maintenance 10 forest divisions come under the Category A, while one division namely Bankura North Division as Category C (with a survival rate of 40% - 59%).

Table – IV. Average weighted survival Percentage of the 3rd year maintenance work in the year 2020 – 2021 under financial assistance of WBCAMPA

Forest Division	Weighted Average Survival (%)	Category
Kharagpur Division	100%	A
Rupnarayan Division	95.69%	A
Medinipur Division	94.78%	A
Kangsabati North Division	89.11%	A
Darjeeling Division	80.27%	A

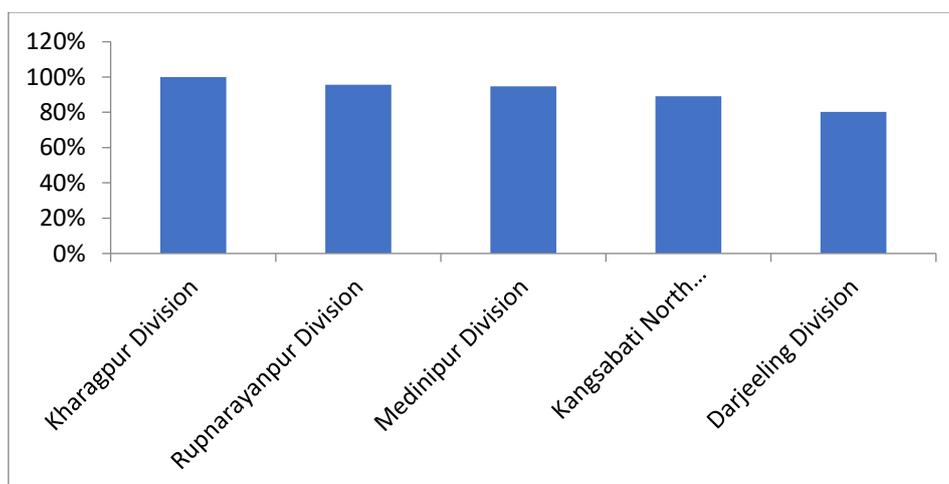

Figure 4. Weighted Average Survival (%) of the 3rd year maintenance work of plantations.

- Among the 5 forest divisions, Kharagpur Division had an excellent survival rate of 100% followed by Rupnarayan and Medinipur Divisions with 95.69% and 94.78% survival rates.
- All these 5 forest divisions come under Category A for its 3rd year of maintenance work.

Table – V. Average weighted survival Percentage of the 4th year maintenance work in the year 2020 – 2021 under financial assistance of WBCAMPA

Forest Division	Weighted Average Survival (%)	Category
Kharagpur Division	96.14%	A
Jalpaiguri Division	94.37%	A
Bankura North Division	93.65%	A
Jaldapara Wildlife Division	90.09%	A
Kangsabati North Division	87.75%	A
Darjeeling Division	84.75%	A
Purulia Division	80.27%	A

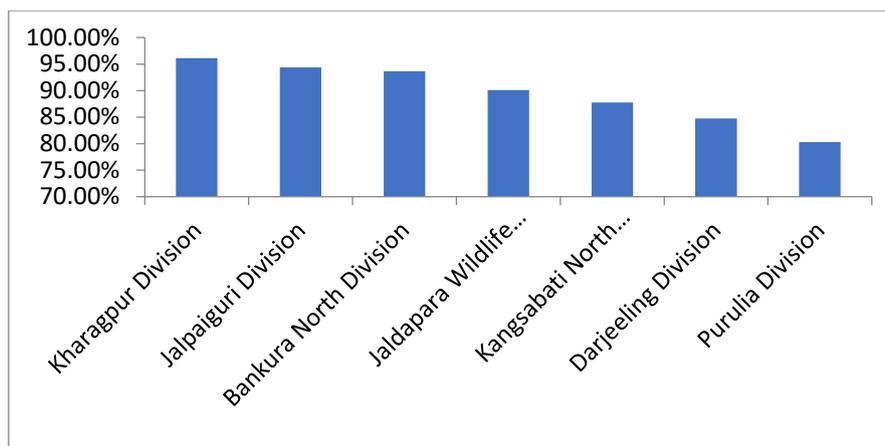

Figure 5. Weighted Average Survival (%) of the 4th year maintenance work of plantations.

- Among the 7 forest divisions, Kharagpur Division recorded the highest survival rate of 96.14% followed by Jalpaiguri and Bankura North divisions with 94.37% and 93.65% survival rates.
- All these 7 forest divisions come under the Category A for 4th year of its maintenance work.

Table – VI. Non-Plantation Works in the year 2020 – 2021 under financial assistance of WBCAMPA

Forest Divisions	Non-Plantation works		Physical Unit
Kurseong	Purchase of Agricultural Implements	Paddy Thrasher	15 nos
		Hand Tiller machine	14 nos
	Group-C quarters maintenance		5 nos
	Group-D quarters maintenance		12 nos
Silviculture Hill	Orchard Fencing		0.5 ha
	Renovation of Mist Chamber		3 nos
	Maintenance of Clonal Garden		2 nos
	Established New Clonal Orchard		1 ha
Silviculture North	Upgrading of mist chamber		3 nos
	Maintenance of Clonal Hedge		3 nos
	Production of Ramets for Clonal multiplication area		12770 Units
BTR East	Fire Extinguisher		15 nos
Silviculture South	Maintenance of Mist chamber		2 nos
	Established New Clonal Orchard		1 ha
Jhargram	Fire Extinguisher		5 nos
Kansabati North	Fire Extinguisher		10 nos
Bankura North	Fire Extinguisher		20 nos
Bankura South	Fire Extinguisher		50 nos
Durgapur	Fire Extinguisher		15 nos
Burdwan	Fire Extinguisher		12 nos
	Construction of Beat Office		1 nos
		Paddy Thrasher	15 nos
		Spare Machine	26 nos

	Purchase of Agriculture Implements	Power Tiller	15 nos
	Fencing work at Beat Office		3 nos- (282.322 meter)
	Construction of Range Office		1 nos
	Construction Group D Quarters		2 nos
Parks & Garden	Wind blower		24 nos
Headquarter CAMPA	Purchase of Office Equipment's	Mobile Phone & Printer	2 nos
		Laptop	2 nos

- A total of 5 numbers of Group – C quarters and 12 numbers of Group – D quarters were maintained in Kurseong Division under the financial assistance of WBCAMPA in the year 2020-2021.
- In the Burdwan Division, 1 Range office, 1 Beat office and 2 Group – D quarters were constructed under the financial assistance year 2020-2021 of WBCAMPA.
- 8 numbers of Mist Chambers were renovated and upgraded in 3 forest divisions in the financial assistance year 2020-2021.
- 5 Clonal Gardens were maintained and 2 New Clonal Orchards were established in Silviculture Hill, Silviculture North and Silviculture South divisions.
- In 7 forest divisions 127 Fire Extinguishers were purchased.
- 24 numbers of Wind Blowers were purchased in Parks & Gardens Division
- Some Agricultural Equipments like Paddy Thrasher, Hand Tiller machine, Spare Machine etc. were purchased in Kurseong and Burdwan forest divisions under the financial assistance of WBCAMPA in the year 2020-2021.

E. Observations:

- The plantation and non-plantation activities of concerned forest divisions under the financial assistance of WBCAMPA in the year 2020-2021 were overall satisfactory except in a few cases.
- The growth and survival percentage of plantations in most of the divisions of North Bengal and South-West Bengal was observed to be in good condition.
- Only Jaldapara WL Division had grass fodder plantation which includes mostly Chepti, Dhadda and Purundi.
- In a few cases plantation damage was observed in some areas of plantation sites, probably due to wild animal's passing through that area.
- Tree species like *Quercus lamellosa* (Buk), *Bucklandia populnea* (Pipli), *Garcinia populnea* (Kafal), *Eriobotrya dubia* (Maya), *Michelia champaca* (Champ), *Garcinia sopsopia* (Kusum), *Duabanga grandiflora* (Lampate), *Cupressus sp.* are exclusively found at the plantations of hill regions whereas tree species like *Pterygota alata* (Narkeli), *Terminalia arjuna* (Arjun), *Bischofia javanica* (Kainjal), *Lagerstroemia parviflora* (Sidha), *Dalbergia sissoo* (Sissoo), *Bauhinia purpurea* (Kanchan), *Mallotus philipensis* (Sindure), *Ficus racemose* (Dumur), *Ficus bengalensis* (Bot), *Ficus religiosa* (Pipal), *Oroxylum indicum* (Totola), *Phyllanthus emblica* (Amloki) etc. are especially found in Terai-Dooars regions.
- Forest divisions of North Bengal (both Hill and Terai-Dooars regions) showed plantations of common tree species like *Schima wallichii* (Chilauney), *Terminalia chebula* (Hartoki/Harra),

Lagerstroemia speciosa (Jarul), *Holarrhena pubescens* (Khirra/Kurchi), *Acacia catechu* (khayer), *Dillenia indica* (Chalta), *Terminalia microcarpa* (Panisaj), *Terminalia crenulate* (Pakasaj) etc.

- In South-West Bengal, the miscellaneous plantations were done with a ratio of 80:20, 70:30 or 60:40 of *Acacia auriculiformis* (Akashmoni/Sonajhuri) and other plant species like *Terminalia bellirica* (Bahera), *Syzigium jambolanum* (Jam), *Bombax ceiba* (Shimul), *Madhuca Latitueifolia* (Mohul), *Azadirachta indica* (Neem), *Pongamia pinnata* (Koronj), *Terminalia arjuna* (Arjun), *Alstonia scholaris* (Chhatim), *Gmelia arborea* (Gamar), *Shorea robusta* (Sal) etc.

A. K. K. K.

Annexure I

Details of works for 3rd party Monitoring for the F.Y.2020-21 of WB CAMPA
